

Children's Wetsuit Size Chart

Please use the following size chart to estimate your approximate suit sizes. Remember that a snug proper fit is critical to suit performance, and that this is no substitute for actually trying a suit on to determine fit and comfort.

	Height	Weight	Chest
	centimeters	kilograms	centimeters
Small	107-122	21-27	63-73
Medium	114-129	22-30	66-76
Large	127-142	25-34	71-81
XL	139-154	30-41	73-83

Children's sizes only available in the Spirit, Venture, Elastiprene 5 and Elastiprene 7 suits. See product pages for details.
